Where did you ODP take you? What was your favorite trip/memory?

We played in games and tournaments all over the Midwest. We would make a trip to play other States at Purdue University which was always fun. My favorite trip was during college for the regional team, myself and a couple other teammates from UW-Milwaukee traveled to Mississippi to compete against the other US regions.

How do you think ODP prepared you for college & soccer at the next level?

ODP had a big part in my preparation for college soccer. You were put into situations that were new; such as playing alongside different players, coached by new coaches, saw various playing styles, and faced unfamiliar pressures to work through as a player.

- UW Milwaukee Women's Soccer
 - 2007-2010
- Horizon League All-Newcomer Team
 - 2007
- Horizon League All-Tournament Team
 - 2008

What non-soccer lessons did you learn through ODP?

ODP also helped me personally because it exposed you to circumstances that, as a young player, you may have not encountered yet. Often players by nature are surrounded by familiar faces and a routine, but ODP helped me learn how to be out of my comfort zone which is something I felt prepared for going into college.
